

Fahmi Achmad Fahrudin

Front-End Web Developer

Address: South Tangerang, Banten | Phone: +6285883560243 | Email: fahmiachmadf13@gmail.com |
Linkedin: Fahmi Achmad Fahrudin | Website: <https://fahmiachmad.com>

SUMMARY

Highly skilled Front-End Web Developer with over 2 year of experience specializing in React.js and Vue.js. Proficient in building dynamic and responsive user interfaces, optimizing web performance, and ensuring cross-browser compatibility. Experienced in server-side rendering using Node.js and Express.js with Next.js and Nuxt.js frameworks. Strong problem-solving abilities and a collaborative mindset. Passionate about creating engaging and user-friendly web experiences.

EXPERIENCE

Front-End Developer

OCBC Bank | Contract

- Develop a website-based application using React JS
- Work closely with Project Manager, Backend Developer, QA Developer and Team Leader
- Utilized GitHub for version control and actively participated in agile development methodologies with the team using Jira
- Implemented state management using Recoil JS, Docker for containerization and Jenkins for deployment
- Utilized axios for asynchronous HTTP requests to REST endpoints, performing seamless CRUD operations.

Nov 2023 - Now

Front-End Developer

BPJS Ketenagakerjaan | Contract

- Develop a website-based application using Vue JS, Nuxt JS, Vuetify, Node JS and Express JS
- Work closely with Project Manager and Team Leader
- Utilized GitHub for version control and actively participated in agile development methodologies with the team using Jira
- Implemented state management using Vuex and leveraged Redis middleware for efficient caching
- Utilized axios for asynchronous HTTP requests to REST endpoints, performing seamless CRUD operations.

Oct 2022 - Jan 2023

Front-End Developer

Soluvas | Contract

- Collaborating with the Project Manager and designers to develop a web application using Typescript, Material UI, React JS, and Next JS
- Contributed to a productive and collaborative development environment using GitLab as a version control tool
- Employed Redux, including redux-toolkit, redux thunk, and redux persist, for efficient application state management
- Utilized axios to handle asynchronous HTTP requests to REST endpoints, ensuring seamless CRUD operations.

Aug 2022 - Nov 2022

Front-End Engineer

PT. Sagara Technology | Internship

- Worked closely with the Project Manager and Team Leader to contribute to ongoing internal website projects using React JS and TailwindCSS
- Implemented Redux, specifically leveraging redux thunk and redux persist, for effective application state management
- Managing application's state using Redux, especially redux thunk and redux persist
- Utilized axios to handle asynchronous HTTP requests to REST endpoints, ensuring seamless CRUD operations.

Dec 2020 - Jul 2021

Embedded System Engineer

Magprotech | Contract

- Led the development of an automatic disinfection chamber and automatic fish feeder project, involving software programming using Arduino and designing the electrical system
- Created an interconnected electrical instrumentation system, facilitating both wired and wireless connectivity
- Integrated IoT capabilities into web pages using React.js, effectively leveraging its functionalities

EDUCATION

Electrical Engineering

Telkom University - Bachelor's Degree

Aug 2017 - Aug 2022
