Fahmi Achmad Fahrudin
Front-End Web Developer

Address: Jakarta Selatan, DKI Jakarta | Phone: : +6285883560243 | Email: fahmiachmadf13@gmail.com | Linkedin: Fahmi Achmad Fahrudin | Website: https://fahmiaf.vercel.app/

SUMMARY

Highly skilled Front-End Web Developer with 1 year of experience specializing in React.js and Vue.js. Proficient in building dynamic and responsive user interfaces, optimizing web performance, and ensuring cross-browser compatibility. Experienced in server-side rendering using Node.js and Express.js with Next.js and Nuxt.js frameworks. Strong problem-solving abilities and a collaborative mindset. Passionate about creating engaging and user-friendly web experiences.

EXPERIENCE

Front-End Developer
BPJS Ketenagakerjaan | Contract   Feb 2023 - Aug 2023
- Develop a website-based application using Vue JS, Nuxt JS, Vuetifty, Node JS and Express JS
- Work closely with Project Manager and Team Leader
- Utilized GitHub for version control and actively participated in agile development methodologies with the team using Jira
- Implemented state management using Vuex and leveraged Redis middleware for efficient caching
- Utilized axios for asynchronous HTTP requests to REST endpoints, performing seamless CRUD operations.

Front-End Developer
Soluvas | Contract   Oct 2022 - Jan 2023
- Collaborating with the Project Manager and designers to develop a web application using Typescript, Material UI, React JS, and Next JS
- Contributed to a productive and collaborative development environment using GitLab as a version control tool
- Employed Redux, including redux-toolkit, redux thunk, and redux persist, for efficient application state management
- Utilized axios to handle asynchronous HTTP requests to REST endpoints, ensuring seamless CRUD operations.

Front-End Engineer
PT. Sagara Technology | Internship   Aug 2022 - Nov 2022
- Worked closely with the Project Manager and Team Leader to contribute to ongoing internal website projects using React JS and TailwindCSS
- Implemented Redux, specifically leveraging redux thunk and redux persist, for effective application state management
- Managing application's state using Redux, especially redux thunk and redux persist
- Utilized axios to handle asynchronous HTTP requests to REST endpoints, ensuring seamless CRUD operations.

Embedded System Engineer
Magprotech | Contract   Dec 2020 - Jul 2021
- Led the development of an automatic disinfection chamber and automatic fish feeder project, involving software programming using Arduino and designing the electrical system
- Created an interconnected electrical instrumentation system, facilitating both wired and wireless connectivity
- Integrated IoT capabilities into web pages using React.js, effectively leveraging its functionalities

EDUCATION

Electrical Engineering   Aug 2017 - Aug 2022
Telkom University - Bachelor's Degree
